

HARSH

Backend Developer | Laravel Full-Stack Developer

+91-9817583639 | harshdhimanbarara15@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Backend Developer with 1+ years of experience building scalable web applications and REST APIs using PHP (Laravel), Node.js, Express.js, and TypeScript. Strong hands-on experience across the full Laravel stack — MVC, Eloquent ORM, route encryption, RBAC, and Blade/Vite + Tailwind front-ends — alongside Node.js systems using MySQL, Sequelize, and Redis. Skilled in secure authentication, cloud storage (AWS S3, CloudFront), database design, and performance optimization.

SKILLS

Languages: PHP, JavaScript, TypeScript, Node.js

Backend Frameworks: Laravel, Express.js, CodeIgniter

Frontend (Laravel stack): Blade, Vite, Tailwind CSS

Databases & ORM: MySQL, Eloquent ORM, Sequelize ORM

Cloud & Dev Tools: AWS S3, CloudFront, Redis, Firebase Admin, Git, GitHub

Security: JWT Authentication, Bcrypt, AES Encryption, Joi Validation, RBAC

Practices: REST API Design, MVC Architecture, Repository & Service Patterns, ESLint, Prettier, Husky

EXPERIENCE

Software Engineer (Backend Developer), SDE-1

April 2025 – Present

Omega Broadcast Pvt. Ltd. • Node.js, Express.js, TypeScript, MySQL, Sequelize, Redis, AWS, Firebase, Laravel

- Developed scalable REST APIs using Node.js, Express.js, TypeScript, and Laravel; designed modular backend architecture following clean coding practices.
- Built secure authentication/authorization using JWT and bcrypt; designed and optimized MySQL schemas with Sequelize ORM.
- Integrated Redis caching to improve API performance and AWS S3/CloudFront for secure file storage and media delivery.
- Implemented Firebase real-time notifications; collaborated with frontend developers to build enterprise applications.

PROJECTS

Membership & Event Management System | Laravel, MySQL, AWS S3, Tailwind v4, Vite

- Built an end-to-end platform for member profiles, KYC verification, and event/attendance tracking across a multi-tier location hierarchy; implemented custom AES-128-CBC route-key encryption and RBAC.

Drishti Management Portal | Laravel 12, PHP 8.2, MySQL, Tailwind v4, Vite

- Built a role-based portal for users/volunteers/incident reports with approval workflows, bulk CSV/Excel import-export, nested location management, and a search audit system.

Enterprise Database Search | Laravel, MySQL, PostgreSQL, SQL Server, MongoDB

- Built a native desktop app for unified cross-database search with AES-encrypted credential storage, query audit logging, and CSV/JSON/PDF/Excel export using Repository/Service patterns.

Hospital Management System | Node.js, Express.js, TypeScript, MySQL, Redis, AWS S3, CloudFront

- Developed scalable backend APIs for hospital modules (FAQs, Blogs, Careers, Galleries, Events) with AWS S3/CloudFront media management and strict code quality via ESLint, Prettier, Husky.

EDUCATION

Bachelor of Vocation (Software Development), SD College, Ambala Cantt (Kurukshetra University) Graduated 2024

CERTIFICATIONS

NSQF Levels 1–4, Information Technology — Government Model Sanskriti Senior Secondary School (GMSSS), HBSE
